Key Contributions

Yatharth Geeta | Play Store | App Store

10K+ Downloads

Designed the Yatharth Geeta multimedia platform for seamless audio, video, and e-book consumption, including background and offline playback. Created user flows, wireframes, high-fidelity UI, responsive layouts, and interactive prototypes for mobile and tablet experiences. Designed content discovery, sharing, notifications, and intuitive navigation with a consistent design system.

Dating application (Cayya – Meet & Connect) | Play Store | App Store

Live

Designed intuitive mobile experiences for an LGBTQ+ social networking platform, improving onboarding, usability, and user engagement. Collaborated directly with clients, providing UX recommendations and design solutions to improve overall product usability and user experience. Created user flows, wireframes, UI designs, prototypes, and design systems while delivering features such as profile discovery, premium subscriptions, privacy controls, and video calling.

CAYYA Admin Dashboard | Web Application

Designed responsive admin dashboards for user management, analytics, and content moderation. Created user flows, wireframes, high-fidelity UI, and reusable design system components. Improved dashboard usability with intuitive navigation and data visualization.

CloudCard | Cloud Storage & Collaboration Platform | Play Store | App Store

Live

Designed end-to-end user experiences for a cloud storage platform, including file management, sharing, and collaboration. Created user flows, wireframes, high-fidelity UI, prototypes, and responsive interfaces. Built a scalable design system with reusable components for a consistent and intuitive user experience.

Kitty Chitty | Digital Chit Fund Platform

Designed end-to-end experiences for Members, Admins, Guarantors, and Borrowers across web and mobile. Collaborated with clients and provided UX recommendations to improve usability, simplify workflows, and enhance the overall product experience. Created user flows for KYC, Auctions, Installments, Membership Transfer, Wallet, and Nominee Claims, along with reusable design system components and responsive admin dashboards.

AlcoMap | E-Commerce Platform | Play Store | App Store

Live

Designed end-to-end e-commerce experiences for product discovery, cart, checkout, and order tracking. Created user flows, wireframes, high-fidelity UI, and responsive interfaces to improve usability. Built a scalable design system with reusable components for a consistent user experience.

Education

2020–23 : K.J. Somaiya Institute of Technology & IT
B.E In Computer Engineering with 9.4 CGPA

2017–20 : VES. Polytechnic
Diploma In Computer Engineering with 93.33%
