EDUCATION

Ramniranjan Jhunjhunwala College, Mumbai

2021–2024

B.Sc. Information Technology

- **GPA:** 9.13/10 — Top 5% of the batch

EXPERIENCE

Mypcot Infotech Pvt Ltd (March 2025 – Present)

Software Developer

Mumbai, Maharashtra

- Developed cloud-based mobile applications including secure file storage, real-time chat, and content-driven apps using scalable architecture.
- Implemented real-time communication and complex app features using structured state management and modular design principles.
- Tech stack: **Flutter (Dart)**, **BLoC**, **GetX**, **Firebase**, **WebSockets**, **MySQL**.

Uponly Technologies (June 2024 – March 2025)

Junior Mobile App Developer

Navi Mumbai, Maharashtra

- Built and released production-grade mobile applications published on the Google Play Store and Apple App Store.
- Worked on feature development, performance optimization, and backend integration for data-intensive modules.
- Tech stack: **Flutter (Dart)**, **GetX**, **Firebase**, **PHP**, **MySQL**.

PROJECTS

Yatharth Geeta — *Flutter, Dart, GetX, Firebase*

- Developed a religious audiobook application providing structured audio content, chapter-wise navigation, and a smooth listening experience.
- Implemented app architecture using **MVC with GetX**, focusing on state management, performance, and clean UI flows.
- ▶ Play Store 🍏 App Store

The Cloudcard — *Flutter, BLoC, WebSockets, Firebase*

- Cloud-based storage and collaboration app with secure file upload, sharing, and multi-type file access.
- Implemented real-time chat and file transfer using **WebSockets**; built with **Clean Architecture** and **BLoC**.
- ▶ Play Store

Uponly Pro — *Flutter, Dart, PHP, REST API*

- Developed a personal finance management app featuring portfolio tracking, asset management, net worth calculation, and reward-based engagement.
- Implemented financial insights, recurring transaction rewards, and referral mechanisms to improve user retention.
- ▶ Play Store 🍏 App Store

Magnova HRMS — *Flutter, Dart, Google Maps API, Push Notification*

- Built and launched an HRMS mobile application with modules for attendance, payroll, leave management, expense management and employee tracking.
- Integrated **Google Maps API** and RESTful backend services to enhance functionality and user experience.
- ▶ Play Store 🍏 App Store
